

Aaron Linsdau AV Needs

AUDIO

- Wireless handheld Shure SM58, Senheiser e935 with wireless adapter or equivalent.
- All audio coming from Speaker's Laptop
- House audio must be high end with quality speakers
- Emphasize Speaker's voice and less emphasis on music/video audio track
- Please indicate Speaker no-go zones for feedback suppression

VIDEO

- Speaker provides laptop and clicker advancer. Speaker will have laptop in Presenter mode and must be visible to speaker. Speaker uses a Mac laptop. Provide power cable to plug laptop into for the duration of the presentation.
- HDMI cable with audio and/or HDMI cable with separate 1/8" audio cable.
- All music, video, and slides will come from Speaker's laptop
- Video recordings of the presentation will be provided to Speaker on hard disk or SD card after the presentation per the contract.
- IMAG: Image magnification should be provided for groups of 50 or more. Image should be from Speaker's head to hips throughout the presentation. Speaker will advise when to zoom in to a focused headshot.

LIGHTING

- Light must be focused on speaker and not on the screen. Keep the screen free from extraneous spill.
- Professional stage lighting required for IMAG and large presentations.
- Keep the audience brightness to 20% full power or less.

STAGE SETUP

- Raised platform above audience as needed. Area should be 10'x15'.
- Hightop table and chair for props and water. Please do not place other items on this table.
- Provide small cooler to store cold props with Blue Ice or equivalent. Contact Speaker for specifics.
- Audience setup: Class, theater, or round tables. The presentation is a sit/stand and watch style. If other styles are requested, please contact the Speaker.

PODIUM

- Speaker does not require a podium and requests that it is off stage to the left or right.

NOTES

Speaker uses butter, compass, plastic film, and polar clothing props with fur during the presentation. Please indicate if any of these will be a problem for the producer or audience.
